Kanpur, UP | +91 9120038438 | mdsaif2357@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven BCA student and Product Support Associate with hands-on experience in SaaS product support, client onboarding, and cross-functional collaboration. Proficient in AI tools, web technologies (HTML, CSS, JavaScript, Python), and data management. Demonstrated ability to resolve technical issues, manage customer relationships, and build full-stack web applications. Passionate about leveraging technology to improve user experience and drive business impact. Actively seeking opportunities to apply technical and problem-solving skills in a fast-paced product or technology environment.

PROFESSIONAL EXPERIENCE

Product Support Associate · [PolarBear Tech](#) Kanpur, UP

April 2026 – Present

- Manage end-to-end customer support for SaaS products Edubuddy and HotelBuddy, resolving technical issues and delivering high-satisfaction client assistance
- Coordinate directly with the development team to identify, document, and track bugs; facilitated faster resolution cycles and measurable improvement in product performance
- Conduct client onboarding sessions and product training programs to drive user adoption, reduce ticket volume, and improve product stickiness
- Maintain structured support ticket logs, issue documentation, and weekly resolution reports ensuring transparency, SLA adherence, and accountability

Paid Intern – Product Support · [PolarBear Tech](#) Kanpur, UP

Jan 2026 – Mar 2026

- Assisted in handling customer queries and support tickets for Edubuddy and HotelBuddy platforms, learning product workflows under senior guidance
- Supported troubleshooting, QA testing, and issue documentation; gained comprehensive hands-on exposure to a live SaaS product environment
- Maintained detailed records of reported issues and resolutions, contributing directly to team knowledge base and operational efficiency

PROJECTS

Social Media Video Downloader · [HTML](#) · [CSS](#) · [JavaScript](#) · [Python](#) · [Flask](#) [↗ Live Demo](#) [↗ GitHub](#)

- Architected and deployed a full-stack web application enabling users to download videos from multiple social media platforms via a clean, intuitive interface
- Built a Python/Flask backend with optimized request handling for fast video processing, low latency, and smooth cross-platform performance
- Implemented responsive front-end with focus on usability-first design principles, accessibility, and efficient client-server communication

AI-Based Telecom Website · [HTML](#) · [CSS](#) · [JavaScript](#) · [ReactJS](#) · [Gemini API](#) [↗ Live Demo](#) [↗ GitHub](#)

- Developed an AI-powered telecom customer assistant integrating Google Gemini API to intelligently understand user queries and deliver contextually relevant solutions
- Integrated multi-channel communication features including WhatsApp and call support, enabling seamless direct communication within the product interface
- Built product exploration, purchase inquiry, and automated quote generation flows, reducing customer effort and improving end-to-end service experience

TECHNICAL SKILLS

Languages & Frameworks: HTML5, CSS3, JavaScript (ES6+), Python, ReactJS

AI & Automation Tools: ChatGPT, Claude AI, Genspark, Google AI Studio, Automation Basics
